## **EQUINE OFFICE SOLUTIONS**

A Division of *Progressive Business Solutions*

### ***PROVIDING THE EQUINE INDUSTRY WITH THE SUPPORT THEY'VE BEEN MISSING***

Have you ever felt that there just aren't enough hours in the day, and your office tasks keep getting put off until tomorrow? Striking a balance between the barn and office work can be difficult, but don't let your business lag behind. Now there's a cost effective alternative for equine business owners who need professional administrative support without the hassle and expense of hiring an on-site employee.

*Equine Office Solutions* applies the proven administrative and marketing services of Progressive Business Solutions to the specific needs of the equine industry to establish effective business systems, streamline communications, enhance marketing results and increase revenue. The services provided to meet these goals include: website updates, managing social media accounts, content creation, e-newsletters, online survey design and reporting, blog creation and management, general correspondence, data entry, scheduling, project management, online research, event management, travel arrangements, contact management and more. Each client receives specific customized services to best meet their individual business needs.

Let's face it, the horse industry has a language all its own, and it helps if your business consultant knows the difference between a forelock and a fetlock! It's time to get out of the office and back in the saddle! Contact us for a complimentary phone consultation and discover how *Equine Office Solutions* can put more hours back in your day while streamlining and growing your business.
